

Senior High- Potential Graduates

Senior High students have been recently busy with University Fairs and University visits. Our students, along with many others are now able to make informed decisions concerning attendance at the many universities represented at these fairs. Below is a photo of students from grades 11 and 12 during their visit to Abu Dhabi University.

Course Selection Deadlines- Message from Mr. Jeff- Student Counselor

As you know, Course Registration for the 2022-23 school year is underway! Each group of students has been sent via GOOGLE CLASSROOM, a formal registration sheet which needs to have a parents signature on it.

I am available to help individual students or families with these decisions. You can request a FTF meeting (Requires 96 hour PCR test), Google Meeting or write via email for answers to your questions.

Deadline Group 2 is Friday March 18/22

Deadline Group 1 is Monday March 21/22

A vibrant photograph of a dandelion field. In the foreground, two large, fluffy white dandelion heads stand on tall, thin stems. The background is a bright blue sky with a few wispy white clouds and a bright sun flare in the lower right corner. The overall scene is bright and cheerful, symbolizing spring and new beginnings.

Report Cards and Parent – Teacher Interviews

Just before Spring Break, students in grades K – 9 received their second term reports and virtual parent – teacher interviews were held. As for senior high, their Mid-Term reports will be sent out later in the month of April.

Field Trips ... Fun and Educational

Students across all grade levels went on the long waited trips to the currently popular places in the UAE, The National Abu Dhabi Aquarium and Expo 2020. Both trips were a fun and an educational learning experience to all the students.

National Abu Dhabi Aquarium provided the opportunity where students stepped inside the shoes of a marine biologist through a guided tour which introduced them to how to care for 'sick' marine animals and rescued sea turtles. They were also exposed to the diverse marine life that The National Aquarium -Abu Dhabi provided. EXPO 2020 was a 'must see' so we were fortunate to include our KGs and Grades 1&2 join the trips despite the distance. Students were entertained by the diversity of things that the countries displayed.

What's new in Senior High

Aside from university fairs and course selections, Senior High still enjoyed themselves. Recently they had an in-school Senior High BBQ ending it with a Safari Trip at Al Khetim where they mingled with their friends and teachers outside the school setting.

Annual Global Day

AGS community participated in our Annual Global Day through having classrooms assigned to different countries. Students from Grades K – 6 researched the country that their class has been assigned to and worked on the aspects of the booth that will represent the culture and traditions of this country. Then they went classroom-hopping within their bubbles to see the various displays that are presented.

Junior and Senior High students have been partnered together to support each other in setting up booths near the cafeteria area after having their teachers make a random choice of two countries. Students were then encouraged to explore these booths based on a given schedule.

AGS will be having their school holiday from Saturday, March 26 until Sunday, April 9th, 2022. Classes will resume on Monday, April 10th, 2022.

*We wish you all a wonderful **Spring Break**.*
